

EXECUTIVE SUMMARY AND RESPONSE TO COMMENTS

Title V Draft Permit Renewal No. V-04-006

QUIK-PIK, INC.

GEORGETOWN, KENTUCKY

July 27, 2004

WILSON TAN, REVIEWER

Plant I.D. # 21-209-00024

Application Log # 55801

Quik-Pik, Inc., an existing Title V major source, submitted an application to renew its existing V-98-027 (Revision 1) permit. The plant is a Title V source because criteria air pollutant potential emissions exceed the major source thresholds.

A preliminary determination was made to approve the permit, and a public notice was placed in Georgetown News-Graphic on June 11, 2004. The comment period expired on July 11, 2004 and no comments were received from the company, public, affected states or EPA. This permit is the proposed permit under the Title V program, and shall become the final Title V permit unless EPA files an objection.

In conclusion, a thorough analysis has been made of all relevant, available information that pertains to this application. The Division has concluded that the source will comply with all applicable air quality regulations and requirements. Compliance with the terms of the permit will ensure compliance with all air quality requirements. Therefore, it is The Division's final determination that a Title V permit should be issued as conditioned.
